EXPERIENCE

CAPGEMINI | SENIOR CONSULTANT

Feb 2020 – Present | Pune, Maharashtra

PROJECTS

DB2 Migration – Nationale Netherlands – Team Lead

- Led team of 10 members for full-scale migration process.
- ETL testing for around 10 TB data, both pre and post migration.

FX EV QA – Morgan Stanley – QA Manual Tester

- Performed both regression and functional QA testing for EV application- used for FX trade booking and management.
- End-to-end requirement analysis, test plan, test case design, execution, and reporting.

TATA CONSULTANCY SERVICES | SENIOR SOFTWARE ENGINEER

Feb 2013 – Jan 2020 | Pune, Maharashtra

PROJECTS

Centralized Production Support – MUFG – Team Lead

- Headed team of 6 members and managed support of 300+, in-house and customer applications.
- Prioritized, segregated, assigned, and resolved incidents based on the priority and criticality of applications.
- Identified, troubleshot repetitive issues, found root causes, and provided valuable solutions to enhance client value.

RET – Risk Engine Test – UAT Tester

- Led testing efforts for Risk Engine app, specializing in risk calculations across domains.
- Used C++ and Linux OS for rigorous testing, ensuring algorithm adherence. Maintained documentation for test cases and facilitated team transition.

AWARDS AND RECOGNITION

- Presented item processing (processing of cheques, cash letters etc.) full flow for MUFG to team members.
- Presented final security sign-off document to NN client and was appreciated for the same.
- As a team, achieved "Excellence and Innovation Team Award" for DB2 migration project for client Nationale Netherlands. Link: Go to this Sway
